Mr Baillier

Sapin, 7 Rue Castiglione, Paris  
Paris 10 Bannishie Hill, HampsteadFrom  
June 26<sup>th</sup> 1847

Dear Sir

I enclose you flowers  
of *Aquilegia canadensis*~~I was sent me for California, but is not  
that species~~*Ethionema cordifolium*  
very small cruciferous flower  
pretty rock plant*Delphinium bicolor* grand  
flower in the way of  
*formosum*, but much  
cleaner white eye. I  
shall have seed the same*Paulownia speciosa*  
or smaller very near it but  
deeper than any plant I ever  
saw of *speciosa**P. Headleri* a pleasing  
shade of lilac purple, very distinct  
every way a new I have had a  
1<sup>st</sup> class cert for

insects, grand plant  
Horse

*Solanum* *Horridum* *amen* common with orange pods  
very fine ornamental var. *capitata* *Pyracantha* *capitata*  
*Solanum* *hemisphaerium* orange pods large white flowers  
very fine  
*Rosa* *brachyloba*

*Passiflora* *caerulea* *Radiatus* *Major* *187*  
*Passiflora* *caerulea* *minor* *187*  
*Passiflora* *caerulea* *minor* *187*

## AGRICULTURAL SEEDS. Page 71.

We are continually receiving letters requesting our advice on matters touching the garden, and the erection and arrangement of greenhouses, and the laying out of grounds. It is seldom possible that satisfactory information on these matters can be conveyed in ordinary correspondence; we have therefore secured, specially for this purpose, the services of an experienced Gardener, eminent in all matters connected with horticulture, who may be consulted by appointment at our Warehouse, or on moderate terms at the applicants' residences, in any part of the country.

Blundell's Cattle Melons and Cattle Marrows, highly nutritive Cattle Food ... page 71

## SPECIAL NOTICES.

**FIVE PER CENT.** allowed on all payments made within one month from date of Invoice.  
**ORDERS AMOUNTING TO 21s. AND UPWARDS, SENT CARRIAGE PAID, AS FOLLOWS:—**  
 To any Railway Station in England and Wales.  
 To Edinburgh, Glasgow, and any principal station on the Caledonian, North British, and Scottish Central lines.

To Dublin and Belfast by the Great Northern rail, and to Bristol or Holyhead by Great Western rail (en route for Cork, Limerick, and Waterford); or carriage paid to the three last towns by Steamboat direct, but only if so requested, as we prefer the route by Bristol or Holyhead, being more expeditious.  
**NO CHARGE FOR PACKING OR PACKAGES EXCEPT IN THE CASE OF PLANTS AND POTATOES, WHEN A SMALL CHARGE IS MADE, AND IF THE MAT OR HAMPER IS RETURNED, HALF-PRICE IS ALLOWED.**

Post-office Orders to be made payable at King-street Post-office, Covent-garden, W.C. All Cheques to be crossed "The Union Bank of London." Any amount may be paid in Postage-stamps.

Those with whom we have not previously had business transactions are respectfully requested to send with their order a REMITTANCE or a LONDON REFERENCE. All Foreign and Colonial orders must be accompanied with a remittance, or a draft on a London agent.

In giving orders, it is only necessary to fill up the accompanying Order Sheet.

It would very greatly facilitate the dispatch of business, if on EACH order our customer's NAME and ADDRESS, and the nearest Railway station, were written **DISTINCTLY**, and in **FULL**.

**N.B.**—We supply plants at the usual trade prices, but do not issue a plant Catalogue.

# NOVELTIES AND SPECIALITIES FOR 1867.

1866 has been truly a red letter year in the annals of *Horticulture*. It opened with an exhibition of plants which has had no parallel, and it closes with a shower of floral novelties which we trust will satisfy the more than Athenian-like craving of those devotees who worship at the shrine of *Flora*. We have devoted double our usual space to these, and yet the *Cornucopia* at our command has been by no means exhausted.

		Per Packet.
		s. d.
1	ADONIS ÆSTIVALIS GRANDIFLORA SUPERBA, a splendid variety, with larger flowers than A. Vernalis, bright yellow with large brown centre . . . . .	1 0
2	AGROSTEMMA CÆLI ROSA HYBRIDA FLORE PLENO, a fine novelty of 1866. See Viscaria . . . . .	6d. and 1 0
3	ANEMONE SPECIES NOVA PONTICA, a recent discovery from the subalpine regions of the Pontic Mountains, where it is a beautiful and ornamental plant . . . . .	1 0
4	ANONYA SPECIES (Compositæ), an effective annual from Abyssinia with large yellow flower heads, stately, picturesque, and suitable for distant effect; 4 to 5 feet . . . . .	per seed 1 0
5	APLOPAPPUS RUBIGINOSUS (Compositæ), a showy September flowering hardy annual, with finely cut foliage, which when young is covered with a white down; produces large terminal corymbs of yellow flowers, each nearly 2 inches in diameter, height about 2½ ft. . . . .	1 0
6	AQUILEGIA VULGARIS VERVAINEANA, a fine species, with semi-double purplish flowers and handsome yellow mottled foliage . . . . .	0 6
7	ARMERIA MONTANA, a trailing species with large pure white flowers, very rare . . . . .	0 6
8	AUBERGINE, or EGG PLANT, GIANT WHITE, fruit three times the size of the old variety, very ornamental . . . . .	1 0
9	AUBERGINE, or EGG PLANT, GIANT STRIPED, fruit as large as that of the Giant White, and beautifully striped; very effective . . . . .	1 0
10	AUBERGINE, or EGG PLANT, BLACK, from Pekin, a robust growing species . . . . .	1 0
11	AUBRETIA GRÆCA, a most desirable addition to this charming spring flowering genus of hardy perennials, popularly known as Blue Alyssum; the flowers are larger and deeper in colour than any of the varieties at present in cultivation . . . . .	1 0
12	AUCUBA JAPONICA, hybridized with the different newly introduced varieties . . . . .	per seed 1 0
13	AUCUBA JAPONICA VIRIDIS, introduced by Mr. Fortune . . . . .	per seed 1 6
14	BEGONIA PEARCII, a handsome new species with rich dark velvety green leaves, traversed by straw-coloured veins, flowers bright yellow, borne on slender stems . . . . .	1 6
15	BERTOLONIA PUBESCENS (Melastomaceæ), introduced from Ecuador; leaves light green, broadly banded in the centre with dark chocolate; was awarded a first-class certificate by the Royal Horticultural and Botanical Society . . . . .	3 6
16	BOCONIA FRUTESCENS, highly ornamental foliage plant, suitable for cultivation in large pots, leaves frond-like, oblong, deeply lobed and very glaucous; 2 to 3 feet . . . . .	1 0
17	BOCONIA JAPONICA, a magnificent introduction from Japan, forming a luxuriant bush, 5 to 6 feet high, its large oak-like dark green leaves producing a splendid effect as a single object on lawns . . . . .	1 0
18	BUDLEYA CURVIFOLIA, fine species, with rose-lilac flowers in long bunches . . . . .	1 0
19	CALCEOLARIAS, Barr's International Prize Varieties, saved by Mr. James from his International Prize Collection . . . . .	5/6, 3/6, and 2 6
20	CALLIOPSIS PHILADELPHICA, a very ornamental perennial species, with large handsome yellow flowers, which are produced the first season . . . . .	1 0
21	CAMPANULA BARBATA, beautiful pale blue pendant flowers; height 1 foot . . . . .	0 6
22	CAMPANULA MEDIUM FLORE ROSEA, a very fine new variety of the Canterbury Bells, distinguished by its beautiful gay flowers of a pure fresh pink colour . . . . .	1 0
23	CELOSIA PYRAMIDALIS NANA AURANTIACA, a fine novelty from Cochín China, 10 to 18 inches, foliage bright green, and brilliant fawn-coloured plumes of flowers . . . . .	1 6
24	CELOSIA PYRAMIDALIS VERSICOLOR, also from Cochín China, 2 to 3 feet high, of pyramidal growth, foliage shaded reddish brown, each branch terminated with vivid carmine flowers, which gradually change to violet . . . . .	1 6
25	CELOSIA PYRAMIDALIS VERSICOLOR, VAR. HYBRIDA FOLIIS ATROBRUNEIS, supposed to be a hybrid between the two preceding, distinguished however by its darker coloured leaves and orange scarlet flowers; an exceedingly beautiful plant . . . . .	1 6
26	CENTAUREA BABYLONICA, an exceedingly picturesque sub-tropical plant, with stately flower spikes of golden yellow rising from the midst of large handsome foliage; 5 to 6 ft. . . . .	1 0
27	CENTAUREA GYMNOCARPA, an exceedingly graceful white foliage plant, with beautifully cut leaves; cannot be too largely used in ribbons . . . . .	6d. and 1 0
28	CHAMÆPEUCE CASABONE, glossy dark green leaves, with white nerves and hairy spines . . . . .	1 0
29	CHAMÆPEUCE DIACANTHA, midrib of leaf and spines ivory white, margined with glossy green and shaded by snowy white down; singularly handsome and extremely ornamental . . . . .	1 0
30	CHAMERANTHEMUM VERBENACEUM (Acanthaceæ), a beautifully variegated white and green foliage plant from South America . . . . .	2 6
31	CHAMERANTHEMUM RETICULATUM, another fine variety, foliage netted white and green . . . . .	2 6
32	CHRYSANTHEMUM JAPONICUM FLORE PLENO. This is a new section of fancy double Chrysanthemums; they are exceedingly beautiful, and for hybridizing with the many superb varieties already in culture, will no doubt be an acquisition . . . . .	1 0

- 33 **CHRYSANTHEMUM LOUIS HONORATY**. This charming miniature variety was raised from the Pompon section, and is looked upon as the first step towards an entirely new class. It grows from 10 to 12 inches high, and from 15 to 18 inches in diameter, completely covered with pretty little flowers of a rosy purple, with white centre; the whole plant having the appearance of a bouquet . . . . . 1 0
- 34 **CHRYSANTEMUM DUNNETTII, GOLDEN YELLOW, FL. PL.** A new double yellow variety, similar in height and habit to *C. Dunnettii*, double white . . . . . 1 0
- 35 **CHRYSANTEMUM TRICOLOR CARINATUM ANULATUM**. A new beautiful variety, with a bright scarlet band on an orange ground, fine border plant . . . . . 1 0
- 36 **CINERARIA ARGENTEA VERA**, a handsome silvery foliaged species . . . . . 1 0
- 37 **CINERARIA BURGÆII**, another very handsome species, both in foliage and flower . . . . . 1 0
- 38 **CINERARIA PAPYRACEÆ**, a tall beautiful large leaved species . . . . . 1 0
- 39 **CLARKIA INTEGRIPETALA**, new double white; a handsome new variety, having very fine pure white double flowers; the increased breadth of the petal rendering this exceedingly effective in masses . . . . . 1 0
- 40 **CLIANTHUS DAMPIERII**, magnificent varieties of this unique plant, colours ranging from white to crimson, with the black boss-like blotch . . . . . 1s., 1s. 6d., and 2 6
- 41 **COLEUS MOLLIS**, handsome velvety oval leaves, and long racemes of bluish violet flowers . . . . . 1 0
- 42 **CONVOLVULUS** for hanging baskets. See body of Catalogue.
- 43 **CUCURBITACEÆ** for indoor culture. See Climbers.
- 44 **CYCLAMEN PERSICUM**, unrivalled varieties. See body of Catalogue.
- 45 **CYTISUS GLABRATUS**, large yellow sweet-scented flowers . . . . . 0 6
- 46 **DAHLIA IMPERIALIS**, splendid foliage species, flowers white, on large terminal pyramids . . . . . 1 0
- 47 **DATURA GIGANTEA**, in the style of *D. quercifolia*, differing however in being dwarfer and more branching, a very desirable plant for isolation . . . . . 1 0
- 48 **DATURA FASTUOSA HUBERIANA**; 10 novel and extremely handsome varieties; the collection, 2/6; in mixture . . . . . 1 0
- 49 **DIANTHUS DENTOSUS HYBRIDIS**, in bloom throughout the whole summer and autumn; colours rich and varying; many of the flowers double or semi-double. Some of the varieties are so beautiful as to merit propagation by cuttings . . . . . 1 0
- 50 **DIANTHUS FRAGRANS**, flowers pure white, elegantly fringed and produced in tufts, very fragrant hardy perennial, 1½ ft. . . . . 0 6
- 51 **DIGITALIS TOMENTOSA**, flowers somewhat erect, dark purple, spotted with bright carmine, the lip very hairy, a very effective border plant . . . . . 1 0
- 52 **ERANTHEMUM HYPOCRATERIFORMIS** (*Acanthaceæ*), a warm greenhouse free-flowering plant from South America, flowers cinnamon-red with crimson centre, leaves bright green, and slightly hirsute on the margin . . . . . 3 6
- 53 **ERIOGONUM UMBELLATUM** (*Polygonææ*), a fine dwarf free-flowering evergreen hardy perennial from the Rocky Mountains, quite unlike any plant at present in cultivation, commencing in June to produce abundantly its small primrose-coloured flowers in compound umbels . . . . . 1 0
- 54 **ERITRICHIUM GLOMERATUM** (*Boraginaceæ*), a fine hardy biennial rock-plant, with beautiful white flowers, from the Rocky Mountains . . . . . 1 0
- 55 **EUPATORIUM GRANDIFLORUM ALBUM** (*Compositæ*), a fine greenhouse plant, with large corymbs of rosy white odoriferous flowers, produced during the winter season . . . . . 1 0
- 56 **EUPHORBIA MARGINATA**, an exceedingly interesting annual, with effective variegated foliage; the lower leaves green, the next narrowly margined with white, and the upper leaves almost entirely white, height 2½ feet; recommended for warm dry situations . . . . . 0 6
- 57 **GLAUCIUM FISCHERII**, effective hardy perennial, large flame coloured flowers, spotted yellow . . . . . 1 0
- 58 **GLOXINIAS**, saved by Mr. Bull from his very choice and superb collection, which contains all the best varieties of this favourite plant . . . . . 2 6
- 59 **GNAPHALIUM CITRINUM**, an effective half-hardy perennial species, the leaves and stems covered with white down, flowers yellow . . . . . 1 0
- 60 **GRAHAMIA AROMATICA**, valuable for the agreeable aromatic odour of its flowers, which entitles it to a place in the flower garden . . . . . 0 6
- 61 **GREVILLEA THELEMANNI SPLENDENS**, an exceedingly fine ornamental foliage plant for conservatory decoration . . . . . 1 0
- 62 **GUICHENOTIA LEDIFOLIA**, an elegant New Holland cool greenhouse shrub, producing its Campanula-like pink flowers in pendant bunches . . . . . 1 0
- 63 **GYNERIUM ARGENTUM KERMESINA**, flower spikes tinted rosy crimson . . . . . 1 0
- 64 **HEBECLINIUM ATRO RUBENS**, a handsome and very fragrant warm greenhouse plant, introduced from Mexico by M. Ghiesbreght; the flowers, which are bright lilac and feathery, are produced in immense corymbs, the footstalks of which are covered with crimson hairs, contrast finely with the flowers, and impart to the plant a novel aspect . . . . . 2 6
- 65 **HELENIUM HOPESII** (*Compositæ*), a new hardy perennial from Pike's Peak, Rocky Mountains, distinct in habit from the rest of the genus, and comparatively dwarf; foliage strongly veined with white, and producing in June large heads of rich orange yellow flowers . . . . . 1 0
- 66 **HERACLEUM EMINENS**, a distinct species, a fine ornamental foliage plant . . . . . 1 6
- 67 **HIBISCUS CANNABINUS**, a fine ornamental sub-tropical plant, flowering the first year; foliage finely cut, and flowers white with purple throat; 5 feet . . . . . 0 6
- 68 **HIBISCUS MACROPHYLLUS**, a gigantic arborescent species, with large glossy leaves and light yellow fragrant flowers, most beautiful for planting out in summer . . . . . 1 6
- 69 **HOLCHUS**, exceedingly effective sub-tropical plants. (See page 16.)
- 70 **IPOMÆA MINIMA SPECTABILIS**, a pretty hardy climbing *Convolvulus*, with small heart shaped leaves and rosy carmine flowers, which continue open the whole day . . . . . 1 0
- 71 **KOCHIA TOMENTOSA**, a New Holland shrub, with peculiarly fine foliage . . . . . 1 0
- 72 **LIATRIS PYNOSTACHYA** (*Compositæ*), charming hardy perennial, with purple flowers . . . . . 0 6
- 73 **LINARIA ALPINA**, a beautiful dwarf rock plant, with blue and orange flowers; height, ½ ft. . . . . 0 6

Per Packet.  
s. d.

- 74 **LINARIA TRISTIS**, a dwarf bushy interesting species of Toadflax, of neat habit and with numerous shoots, each terminating in a close raceme of large spurred flowers, occasionally a pure yellow self, but more frequently of a yellow or primrose ground, with a conspicuous blotch of deep crimson, violet, purple, &c. on the prominent palate and lower lip; continuing in bloom throughout the summer if the seed vessels are removed. 1 0
- 75 **LINUM MACRAYI**, a splendid new species from Chili, likely to prove quite hardy; habit dwarf, with large orange-coloured flowers. 2 6
- 76 **LONAS UMBELLATA** (*Compositae*), an effective annual, with finely cut leaves and golden yellow flowers; height, 10 inches. 1 0
- 77 **LUBINEA SPATHULATA**, a pretty little plant, covered with a profusion of white or yellow flowers, which produce a charming effect. 1 0
- 78 **LUPINUS HYBRIDUS 'ATROCOCINEUS'**, the handsomest of all the Lupins, producing long spikes of rich crimson scarlet flowers, tipped white. 1 0
- 79 **MALVA CALIFORNICA**, a beautiful arborescent branching species, with handsome foliage, and flowers like *Malope Grandiflora*; blooms all winter in the greenhouse. 1 0
- 80 **MALVA LATERITIA**, a trailing species with dark green leaves and numerous rosy-nankin flowers; a useful rock plant. 1 0
- 81 **MESEMBRYANTHEMUM**, 25 Cape species, the Collection, 10s. 6d. . . . . mixed 1 0
- 82 **MIMULUS, DUPLEX FLOWERING**, saved by Mr. Bull from his strain of unique and extraordinary Mimuluses, wherein the calyx seems to mimic the corolla by being as beautifully marked, imparting a massiveness and a durability hitherto unknown to the Mimulus, and long after the corolla has dropped the calyx continues to retain its beauty. 2/6 & 1 6
- 83 **MUSTARD TREE OF SCRIPTURE**, "*Salvadore Persica*." The Scriptural associations connected with this plant are its greatest recommendation, as it does not of itself possess any great beauty. In its native soil it becomes a tree, but it may be cultivated in a stove as a small shrubby plant. Its foliage is neat, somewhat resembling that of the myrtle, and its flowers are disposed in clusters on the tops of the shoots. 4 seeds 5 0
- 84 **MYOSOTIDIMUM NOBILE**, the rare New Zealand Forget-Me-Not, with broad oval heart shaped thick fleshy leaves, subglobose racemes of deep azure purple-eyed flowers, measuring up to 5 inches across. 2 6
- 85 **NASTURTIUM TOM THUMB COMPACTUM SUPERBUM**, very dwarf, fine habit; grows 6 inches high, and forms a mass of scarlet; fine for bedding. 1 0
- 86 **NASTURTIUM TOM THUMB, NEW ROSE**, the colour the exact counterpart of *Trentham* Rose Geranium, habit compact and profuse blooming. 1 0
- 87 **NEMOPHILLA MACULATA GRANDIFLORA**, flowers like *N. Maculata*, but about twice the size, an exceedingly beautiful variety, and very effective. 1 0
- 88 **NICOTIANA GRANDIFLORA PURPUREA**, a majestic and picturesque subtropical plant, with large handsome leaves and purple flowers. 0 6
- 89 **NICOTIANA MACROPHYLLA GIGANTEA**, the most remarkable species of this genus; its large leaves, its stately height (8 to 10 feet), and its crowning bunches of large purple flowers, give it quite a noble appearance. 1 0
- 90 **NIGELLA FONTANESIANA**, a fine early flowering variety of this very curious genus. 1 0
- 91 **GENOTHERA FRUTICOSA MAJOR**, a fine hardy perennial, flowers yellow, height 3 ft. 0 6
- 92 **ONOPORDON ARABICUM**, a new species of the Cotton Thistle, 10 feet high, and 30 feet in circumference; its immense spiny glaucous cottony leaves render it a most remarkable and effective ornamental foliage plant. 1s. & 2 6
- 93 **PELARGONIUM**, spotted, saved by Mr. Bull from his splendid new spotted varieties, among which are the most diversified shades and markings. 3 6
- 94 **PELARGONIUM ZONALE**, saved by Mr. Bull from his superb strain, which embraces almost every shade and marking to be found among the more recent varieties. 2 6
- 95 **PENTSTEMON ACUMENATUS**, a pretty and distinct species from the subalpine districts of the Rocky Mountains, with fine lanceolate foliage, forming a dense tuft, and long erect one-sided racemes of bluish purple flowers; quite hardy in dry soils. 1 0
- 96 **PENTSTEMON BARBATUS TORREYI**, a noble addition to our stately hardy border plants, height 7 feet, and on rich soils it would probably exceed this. The plant is of remarkably vigorous growth, with bright scarlet flowers; a native of New Mexico. 1 0
- 97 **PENTSTEMON COMPACTUS NANUS**, a fine deep crimson bedding variety, 1 ft. 1 0
- 98 **PENTSTEMON DIGITALIS**, a very hardy species, with white flowers streaked crimson. 0 6
- 99 **PENTSTEMON GLABRUS**. This species is one of the most desirable of the blue flowered section. It is of dwarf habit, with lanceolate foliage, and flowers produced in terminal racemes, mostly bright blue with pinkish lilac throat; quite hardy. 1 0
- 100 **PETALOSTEMON VIOLACEUM** (*Leguminosae*); the structure of this hardy perennial is both pretty and curious, its habit is slender, with small elegant foliage and violet flowers, produced in dense heads. 0 6
- 101 **PETUNIA** (Bull's New Hybrids). The seed offered was saved by Mr. Bull from his magnificent collection, which embraces the widest range of shades, stripes, and markings, to be found in this flower. 1/6, 2/6 & 3 6
- 102 **PHYTOLACCA ICOSANDRA**. This plant is remarkable for its elegant foliage and long graceful red racemes, studded with almost jet black berries; fine for table decoration. 1 0
- 103 **PITCAIRNEA TABULÆFORMIS** (*Bromeliaceae*). This new stove plant was introduced by M. Ghiesbreght, from Chiapa, in Mexico; the flowers, which are of a deep orange colour, are produced from the centre of the plant in a dense spike, and contrast prettily with the light green foliage. 3 6
- 104 **PLAGIUS GRANDIFLORUS**, fine effective hardy perennial, large golden yellow flowers. 0 6
- 105 **POTENTILLA HYBRIDA FLORE PLENO**. The *Potentillas* have long been favourite border perennials; the variety now offered produces a fair proportion of double and semi-double flowers, and will be a decided acquisition. 1 0
- 106 **PORTULACCA GRANDIFLORA PLENISSIMA**, crimson, white, golden-yellow, white red-striped, &c., in mixture, flowers very large and double to the centre, an exceedingly effective plant in warm situations, and as a pot plant. 1 0

		Per Packet. s. d.
107	<b>RANUNCULUS ASIATICUS SUPERBISSIMUS</b> , a new class of garden <i>Ranunculus</i> , a fine acquisition, blooms freely the second year, and produces unusually large double brilliant coloured flowers of all shades	1 0
108	<b>RHAGODA NUTANS</b> , a fine plant for hanging baskets, with bright red, very effective fruit	1 0
109	<b>RIVINA LÆVIS</b> , a fine plant for table decoration, easily cultivated, and producing long drooping elegant racemes of purple berries	1 0
110	<b>SALVIA CANDELABRUM</b> , an elegant species of symmetrical growth, and with large dark violet flowers, striped and spotted white	1 0
111	<b>SALVIA CHIONANTHA</b> , a highly ornamental hardy perennial, with wrinkled lanceolate foliage, and of pyramidal growth, profusely covered with large white flowers on stems 2 to 2½ feet high	1 0
112	<b>SALVIA GLUTINOSA</b> , a strong growing species, with yellow flowers, 4 feet	0 6
113	<b>SALVIA PUMILA</b> , a fine bedding plant, producing long spikes of beautiful red flowers, till destroyed by frost	1 0
114	<b>SALVIA SPLENDENS COMPACTA</b> , fine greenhouse plant, more dwarf, bushy, and floriferous than the well-known <i>S. Splendens</i>	1 0
115	<b>SANVTALIA PROCUMBENS FLORE PLENO</b> , this is one of the prettiest of last year's novelties, and cannot fail to occupy a leading place among bedding plants	1s. and 0 6
116	<b>SAXIFRAGA FORTUNEI</b> , an exceedingly desirable, handsome, recently introduced Japanese plant, producing in the greenhouse, during September, October, and November, when flowers are scarce, large corymbs of white blossoms	2 6
117	<b>SCHIZANTHUS ATROPURPUREUS OCLATUS</b> , another fine new variety, with large rich crimson purple flowers and black eye	1 0
118	<b>SCHIZANTHUS GRANDIFLORUS ALBUS</b> , a beautiful new variety, with large pure white flowers, sulphur eye	1 0
119	<b>SCHIZANTHUS RETUSUS NANUS</b> , superior to <i>S. retusus</i> , being more dwarf, compact, brighter crimson, and more floriferous	1 0
120	<b>SCHIZOSTYLIS COCCINEA</b> , a splendid plant for the greenhouse, blooming throughout the autumn months and sometimes the whole winter; flowers beautiful brilliant scarlet, and not unlike the <i>Tritonia</i>	1 0
121	<b>SEDUM</b> —20 fine species, 5s. 6d.; 12 ditto, 3s. 6d.; mixed	1 0
122	<b>SILENE SAXIFRAGA</b> , a charming miniature species, with a fine grass-like foliage, ½ ft.	1 0
123	<b>SILYBUM EBURNEUM</b> (the Ivory Thistle), foliage dark glossy green spotted white; stems and veins ivory white; very effective the first year from seed	1 0
124	<b>SONCHUS MACRANTHUS</b> , fine ornamental foliage plant, leaves 18 inches long, flower spikes about 6 feet high	1 0
125	<b>SONCHUS PENNATUS</b> , a handsome foliage plant with glossy green leaves finely cut	1 0
126	<b>TETRANEMA MEXICANA</b> ( <i>Scrophulariaceæ</i> ), a pretty little greenhouse perennial, producing profusely its beautiful rosy-purple flowers throughout the year	2 6
127	<b>TROPÆOLUM LOBBIANUM, LILY SCHMIDT, CRIMSON</b> ; similar to the older variety of this name, but with bright crimson flowers	1 0
128	<b>VERBENAS</b> , saved from the most advanced varieties of the "Velvet Cushion" type, well known for the beauty of their flowers and superior constitution; this seed was saved for us by Mr. Wills, who originated the type, and whose high standing in the horticultural world as a raiser of Verbenas will be the best guarantee we can offer to purchasers, that from this seed they may expect flowers of superior excellence. We may just add that seedling Verbenas flower early, and are suitable for all decorative purposes the first season	2 6
129	<b>VIOLA CORNUTA, Mauve Queen</b>	1s. & 2 6
130	<b>VIOLA CORNUTA, Purple Queen</b>	1s. & 2 6
	There has been so much written during the last autumn about the decorative value of these two plants, that it is only reasonable to expect that they will class amongst the most fashionable plants of 1867. (In addition to seed, we can supply plants by the hundred or dozen; prices on application; quantities to be stated.)	
131	<b>VIOLA, OR PANSY</b> , for spring gardening. See body of Catalogue.	
132	<b>VISCARIA CARDINALIS</b> , a new variety, with exceedingly bright magenta-coloured flowers, producing in masses a strikingly beautiful effect	1 0
133	<b>WAITZIA STEETZIANA</b> , a pretty graceful miniature species, well adapted for pot culture or select spots in the flower garden; flowers yellow, about half-an-inch in diameter and produced freely in terminal corymbs; a beautiful everlasting for winter bouquets	1 0
134	<b>WHITLAVIA GLOXINIOIDES</b> , an exceedingly beautiful novelty, with fine Gloxinia-like blossoms; the tube of the corolla is pure white and the limb delicate porcelain blue	1 0
135	<b>WIGANDIA VIGIERII</b> , a splendid acquisition, far surpassing <i>W. caracasana</i> in beauty, leaves much larger, and of a livelier green	1s. & 2 6
136	<b>XERANTHEMUM CARYOPHYLLOIDES FLORE PLENO</b> , a remarkably beautiful variety of this favourite everlasting; flowers very double, beautifully mottled rose, red, crimson, and purple, even more intensely than in <i>Portulaca Caryophylloides</i> ; it is recommended as an effective border plant and valuable for winter bouquets	1 0
137	<b>ZEA JAPONICA VARIEGATA</b> ; as an ornamental foliage plant it would be impossible to say too much in favour of this truly magnificent maize; it differs in growth very materially from the common Indian corn, being much more graceful, the foliage 2 to 3 inches wide and 3 to 4 feet long, beautifully and regularly striped or banded alternately light green and pure white; in its earlier stages it is tinged with a delicate rose. There is no other plant we can compare it to than the beautiful <i>Arundo Donax Variegata</i> , which however in all points of grace and beauty it greatly surpasses. In rich soil and warm situations it attains a height of from 5 to 6 feet; in colder situations it will not grow quite so tall. In groups of three or so the effect is most telling. As a pot plant for conservatory decoration it is matchless	6d., 1s., and 2 6

## DOUBLE STOCKS.

Of the floral gems which beautify the flower garden in summer and autumn, few are so universally prized as the Stock Gilliflower; its DELIGHTFUL FRAGRANCE, rich and varied colours, duration and profusion of bloom, admirably adapt it to any position in ornamental gardening, either flower-beds, edgings, or massing. As a cut flower for drawing-room bouquets or portable flower-baskets, it is alike valuable.

THE FOLLOWING VARIETIES ARE THE MOST WORTHY OF CULTIVATION.

**New Large-flowering German Dwarf Ten-Week Stock.**

			s.	d.				s.	d.	
138	16 Splendid varieties	-	-	3	6	143	6 Splendid new varieties, smaller packets	1	6

150	Splendid mixed, sufficient for a large bed	2	6	153	" <i>white</i> " " "	-	2	6	

**New Large-flowered Pyramidal German Ten-Week Stock.**

For vine and flower border decoration, or for large beds, this elegant variety is a most desirable acquisition; the flowers are large, and gracefully disposed. Height, 18 inches.

154	12 Splendid varieties	-	-	2	6	157	Splendid <i>crimson</i> , sufficient for a large bed	2	6	
155	12 " smaller packets	-	-	1	6	158	" <i>purple</i> " " "	-	2	6
156	Splendid mixed, sufficient for a large bed	2	6	159	" <i>white</i> " " "	-	2	6		

**Wallflower-leaved Dwarf German Ten-Week Stock.**

The leaves of these are smooth and shining, which contrast beautifully with the rich coloured flowers. Height, 12 inches.

160	12 Splendid varieties	-	-	-	2	6	163	Splendid <i>crimson</i> , sufficient for a large bed	2	6	
161	12 " smaller packets	-	-	-	1	6	164	" <i>purple</i> " " "	-	2	6
162	Splendid mixed, sufficient for a large bed	2	6	-	-	-	165	" <i>white</i> " " "	-	2	6

**New Giant, or Tree Ten-Week Stock.**

This is the most magnificent of the Ten-Week Stocks; the flower spikes are massive, being generally 18 inches long, the flowers very double, and the individual blooms about  $2\frac{1}{2}$  inches in diameter. It is admirably adapted for large beds and mixed flower borders; it is of pyramidal growth, and attains a height of 2 feet.

166	10 Splendid varieties	-	-	-	5	6	168	Splendid mixed, sufficient for a large bed	5	0	
167	10 " smaller packets	-	-	-	3	6	169	" smaller packets	-	2	6

**New Dwarf Bouquet German Ten-Week Stock.**

This is a most valuable variety for general culture: it is densely branched, and a most abundant and continuous bloomer, suitable for small beds and edgings. Height, 6 inches.

170	6 Splendid varieties	-	-	2	6	171	6 Splendid varieties, smaller packets	-	1	6
172	Splendid mixed, sufficient for a large bed	-	-	-	-	-	-	-	2	6

**Miniature (Tom Thumb) Dwarf German Ten-Week Stock.**

Pretty low-growing plants (4 inches high), admirably suited for edgings or small flower beds.

173	6 Splendid varieties	-	-	2	6	174	6 Splendid varieties, smaller packets	-	1	6
175	Splendid mixed, sufficient for a large bed	-	-	-	-	-	-	-	2	6

**New Large-flowering Pyramidal Miniature Ten-Week Stock.**

For neat compact beds, ribbons, and edgings, this will be found most useful.

176	8 Splendid varieties	-	-	2	6	179	Splendid rose, sufficient for a large bed	-	2	6
177	8 " smaller packets	-	-	1	6	180	" crimson " "	-	2	6
178	Splendid mixed, sufficient for a large bed	2	6	181	" purple " "	-	2	6		

**New Large-flowered Imperial (Emperor) or Perpetual Flowering German Stock.**

The Imperial or Emperor, sometimes called Perpetual Stocks, are hybrids of the Brompton, growing 18 inches high, and of a robust branching habit. Sown in March or April they make splendid "AUTUMN-FLOWERING STOCKS," and form a valuable succession to the Summer-blooming varieties; should the winter prove mild, they will continue flowering to Christmas. Sown in June or July they flower the following June, and continue flowering through the summer and Autumn months.

182	8 Splendid varieties	-	-	2	6	185	Splendid <i>scarlet</i> , sufficient for a large bed	2	6

184	Splendid mixed, sufficient for a large bed	2	6	187	" <i>white</i> " " "	-	2	6	

**Brompton, or Winter German Stock.**

The Brompton and Giant Cape are generally called Winter Stocks, on account of their not flowering the first year; the former is robust and branching, the latter possesses the characteristic so much esteemed by some, viz., an immense pyramidal spike of bloom.

188	12 Splendid varieties	-	-	3	6	191	Splendid <i>scarlet</i> , sufficient for a large bed	2	6
189	12 " smaller packets	-	-	2	0	192	" <i>purple</i> " " "	-	2

196	Splendid mixed, sufficient for a large bed	2	6	-	2	6	199	" <i>white</i> " " "	-	2

**Covent Garden Intermediate Stock.**

The Intermediate Stock is extensively cultivated for Covent Garden Market; it is dwarf and branching, and in the early summer months constitutes the principal feature in furnishing jardinetts, window, &c., for the opulent classes during "the London season." Few, if any, Stocks are more important than these for an early summer display, and if sown early in spring, they are excellent for autumn flowering.

**ASTERS.**

For beauty and variety of habit, form, and colour, the Aster stands unrivalled, and of all flowers is best adapted to gratify the taste, and meet the accommodation of every lover of floral beauty. Some of the flowers are unusually large, others extremely small; some are beautifully incurved, others reflexed; while some of the varieties are tall and others dwarf. Amongst the tall kinds most worthy of notice we should mention the **Emperor**, with its noble flowers; the **Paony**, with its beautifully incurved ball-shaped blossoms; the **Imbrique Pompon**, with its numerous miniature flowers; and the **Cockade**, with its beautiful large white centre and variously-tinted border. The above are particularly suitable for large flower-beds, or intermingled in the borders with Dahlias, Gladioli, and Roses. Of the dwarf varieties the most beautiful are the **Chrysanthemum**, its large flowers almost hiding the foliage; and the **Bouquet Aster**, with its 100 or 200 blossoms. These are splendid, either for small flower-beds or edgings.

**New Giant Emperor Aster.**

(Tassel-flowered Aster of the Horticultural Society.)

*These have the largest and most magnificent flowers of the genus, but not equal to the Paony fl., Chrysanthemum fl., or Victoria for general effect.*

## COLLECTIONS OF CHOICE CARNATIONS AND PICOTEE SEEDS.

Saved from the following colours by  
and distinguished by his Seal, thus

“OUR SARDINIAN CORRESPONDENT,”  
and initials, G. E. S.

These seeds have been saved from one of the finest collections in Europe, and are warranted to yield 80 per cent. of Splendid Double Flowers, surpassing in floral beauty, rich and brilliant colours, those saved by any German, French, or Belgian cultivators.

Carnations and Picotees are Prized for their delicious fragrance and exquisite beauty; as cut flowers, they are indispensable for furnishing flower-baskets and drawing-room bouquets.

### CARNATIONS, SECTION I.

This Section consists of Four Collections, each forming a distinct feature.

**331 Collection A.—SELFS.—Contains 12 superb varieties of 10 seeds each, 3/6.**

**I. Selfs.**—ONE-COLOURED.—The flowers possess the delightful perfume of the old and highly prized Clove, with the smooth-edged petals and exquisite symmetry of a florist's flower.

**332 Collection B.—FLAKES.—Contains 12 superb varieties of 10 seeds each, 3/6.**

**II. Flakes.**—TWO-COLOURED.—The flowers are either white or some other hue, which is beautifully striped or flaked with a distinct and brilliant colour.

**333 Collection C.—BIZARRES.—Contains 12 superb varieties of 10 seeds each, 3/6**

**III. Bizarres.**—THREE-COLOURED.—The flowers are either white or some other light shade, beautifully striped with two distinct and brilliant colours.

**334 Collection D.—FANCY.—Contains 12 superb varieties of 10 seeds each, 3/6.**

**IV. Fancy.**—To the amateur this class will be specially interesting; the flowers are beautifully formed, and are either shaded, spotted, or mottled with rich and varied colours, thus imparting to the flower an extremely novel and beautiful appearance.

### YELLOW CARNATIONS, SECTION II.

This Section comprises Three Collections which, on account of the colour of the flowers, are universally admired and extensively grown.

**335 Collection E.—FLAKES.—Contains 12 superb varieties of 10 seeds each, 4/0.**

**I. Yellow Flakes.**—TWO-COLOURED.—The flowers are either yellow or orange, striped or flaked with a rich and distinct colour, as purple, scarlet, &c.

**336 Collection F.—BIZARRES AND SELFS.—Contains 12 superb varieties of 10 seeds each, 4/0.**

**II. Yellow Bizarres and Selfs.**—The flowers of the Bizarres are either yellow or orange, striped with two distinct and beautiful colours.

**337 Collection G.—FANCY.—Contains 12 superb varieties of 10 seeds each, 4/0.**

**III. Yellow Fancy.**—Exquisitely variegated with every tint of the rainbow, and unequalled for their extraordinary rich and dazzling colours.

### PERPETUAL OR TREE CARNATION, SECTION III.

Valuable for Conservatory Decoration.

These are called “TREE” on account of their upright growth and branching habit, and “PERPETUAL” because they flower several times during the season. They may easily be had in bloom under glass, from November to May, while in autumn they are most attractive border plants.

This Section consists of Four Collections.

**338 Collection H.—SELF.—Contains 12 fine varieties of 10 seeds each, 3/6.**

**339 Collection I.—FLAKE.—Contains 12 fine varieties of 10 seeds each, 3/6.**

**340 Collection J.—BIZABRE.—Contains 12 fine varieties of 10 seeds each, 3/6.**

**341 Collection K.—FANCY.—Contains 12 fine varieties of 10 seeds each, 3/6**

### PICOTEE, SECTION IV.

The Picotee is distinguished from the Carnation by the flowers being PURE WHITE OR YELLOW, &c., elegantly margined or fringed with scarlet, purple, rose, carmine, crimson, vermilion, &c. This

Section includes Three Collections.

**342 Collection L.—WHITE GROUND, VARIOUSLY MARGINED.—Contains 12 superb varieties of 10 seeds each, 3/6.**

**343 Collection M.—YELLOW GROUND, VARIOUSLY MARGINED.—Contains 12 superb varieties of 10 seeds each, 4/0.**

**344 Collection N.—PERPETUAL OR TREE; WHITE, VARIOUSLY MARGINED.—Contains 12 fine varieties of 10 seeds each, 3/6.**

## ENGLISH-GROWN GOURDS.

*These were Exhibited at all the London Fruit Shows, and were awarded the principal prizes.*

WE have not enumerated the varieties contained in our extensive and magnificent English collection; it embraces every shape and colour found amongst this most curious, interesting, and now popular fruit, in weight the smallest being under half an ounce, and the largest over 172 lbs. At the Great Fruit Shows, where this collection has been exhibited in whole or in part, the highest awards have been given to it; and on all hands it has been spoken of as the most extensive and beautiful ever got together in this country. We have arranged the collection in classes, according to the weight of the fruit, feeling certain that this will be the most acceptable mode of offering it. Each packet will contain a description of the fruit, colour, and shape.

- 442 Class No. 1, Miniature Gourds, fruit weighing from  $\frac{1}{4}$  oz. to 8 oz., 10 packets, 2/6; 15 ditto, 3/6; 20 ditto, 5/6.  
 443 Class No. 2, Small Gourds, fruit weighing from 10 oz. to 20 oz., 10 packets, 2/6; 15 ditto, 3/6; 20 ditto, 5/6.  
 444 Class No. 3, Medium Gourds, fruit weighing from 2 lbs. to 4 lbs., 10 packets, 2/6; 15 ditto, 3/6; 20 ditto, 5/6.  
 445 Class No. 4, Large and Mammoth Gourds, fruit weighing from 5 lbs. to 172 lbs., 10 packets, 2/6; 15 ditto, 3/6; 20 ditto 5/6.  
 446 Class No. 5, Turk's Cap Gourds, fruit weighing from 2 lbs. to 10 lbs., 6d. to 1/ per packet.  
     447 100 packets, embracing the 5 classes, 21/.  
     448 200     "                     "                     42/.  
     449 Mixed varieties, including all sorts, 1/, 2/6, 3/6 and 5/6.

*The following Foreign Gourds are offered for the first time.*

- |   | Per pkt. |
|---|----------|
| 450 <i>Cucurbita argyrosperma</i> . This species is recommended for its large beautiful white seeds, the flavour of a filbert, and suggested as an addition to the dessert table..... | 1 0      |
| 451 <i>Cucurbita maxima verrucosa</i> . A fine ornamental species; fruit of a dark green colour, warted; when young excellent for the table .....                                     | 1 0      |
| 452 <i>Lagenaria angolensis</i> . The flowers of this species are large and white; the fruit, size and shape of an orange; green, blotched white, very pretty .....                   | 1 0      |
| 453 <i>Lagenaria natalensis</i> . Very much like the foregoing, but with dark green shiny fruit, blotched white.....  | 1 0      |
| 454 <i>Lagenaria sphaerica</i> . Flowers snowy white; fruit the size of an orange; dark green, marbled white .....  | 1 0      |
| 455 <i>Melothria cucumerina</i> . A pretty species of cucumber; the fruit smooth, about an inch and a-half long, and slender; can be pickled like ghirkins.....                       | 1 0      |

## ORNAMENTAL GRASSES,

For Winter-Bouquets, Dinner-Table Decorations, Edgings, Ribbons, Centres of Beds, Sub-tropical Gardens, Islands, Select Plantations, Shrubberies, for the Sides of Rivulets, Ravines, Lakes, &c.

It is scarcely possible to over-estimate the decorative qualities of Ornamental Grasses, for the flower-garden and shrubberies; some are exceeding graceful, others neat and compact in growth; some again curious, while there are others stately and majestic in appearance, the *Holcus* for example.

*In their cultivation the plants should be so thinned out as to allow for individual development.*

All the grasses may be gathered and dried for winter decoration; but as some are better adapted for that purpose than others, we recommend the collection for "**Winter Bouquets.**"

- 456 Collections suitable for Flower Border Decoration, 30 varieties, 7/6; 20 ditto, 5/6; 15 ditto, 3/6; 10 ditto, for 2/6.  
 457     "     "     for Edgings, 10 varieties, 2/6; 6 ditto, 1/6.  
 458     "     "     for Shrubberies, &c., 30 varieties for 7/6; 20 for 5/6; 15 for 3/6; 10 for 2/6.  
 459     "     "     for Winter Bouquets, 30 packets, 7/6; 20 for 5/6; 15 for 3/6; 10 for 2/6.  
 460     "     "     for Sub-tropical Gardens, 15 packets, 4/6; 10 packets, 3/6.

All the grasses flower the first season, and most of them continue for two or more years. *They may either be sown where intended to bloom, or in pots, and transplanted when about two inches high.*

1ST SECTION.—*The following are effective in mixed borders, and most of them contribute considerably to the elegance of table bouquets.*

	These two varieties are pretty in-				
	door grasses.				

The following new beautiful Ornamental Grasses are offered for the first time, and we feel sure from the descriptions received with them they cannot fail to please.

		Per pkt. s. d.
541	<i>Agrostis Steveni</i> , a large and exceedingly graceful variety, 2 to 3 ft. . . . .	1 0
542	<i>Andropogon Allioni</i> , flowers bordered reddish brown, with long beards, 1½ ft. . . . .	1 0
543	<i>Andropogon bombycinus</i> , a charming grass for pot culture, with large pendant ears, with a fine silvery white covering, soft like satin to the touch, 1 ft. . . . .	1 0
544	<i>Andropogon Ischæum</i> , very remarkable for its silky inflorescence, 2 to 3 ft. . . . .	1 0
545	<i>Cenchrus laevigatus</i> , remarkable for its long cylindrical and crimped bearded ears . . . . .	1 0
546	<i>Chascolytrum erectum</i> , though not new to botanists, this remarkable grass is unknown in European gardens; it is exceedingly ornamental, and much resembles the <i>Briza Major</i> . . . . .	1 6
547	<i>Carex Granji</i> , a suitable species for moist situations and artificial lakes, with long drooping foliage and singularly curious flowers . . . . .	1 0
548	<i>Cyperus Killingioides</i> , a pretty little plant for the neighbourhood of ornamental waters, producing numerous spherical ears of a beautiful clear green, ½ ft. . . . .	1 0
549	<i>Eleusine Egyptica</i> , a pretty plant for edging or planting beside running streams or ponds, growing in close tufts, bearing thick short ears, ¾ ft. . . . .	1 0
550	<i>Eleusine rigida</i> , a fine dwarf species for edgings or pot culture, with close tufts, from which rise numerous stems, bearing three or four curious short thick heads, ¾ ft. . . . .	1 0
551	<i>Eleusine tristachya</i> , a dwarf and very graceful species . . . . .	0 6
552	<i>Eragrostis elongata</i> , a pretty plant, somewhat resembling our <i>Poas</i> , but distinguished from them by its large violet plumes, about 2 ft. . . . .	1 0
553	<i>Lappago racemosa</i> , a curious species of dwarf branching habit, very remarkable for the singularity of its rough bearded ears, 1 ft. . . . .	1 0
554	<i>Panicum compressum</i> , long narrow graceful foliage, medium sized plumes, a very ornamental species, and as it produces abundance of firm seed, may possibly prove a good fodder plant, 2 to 3 ft. . . . .	1 0
555	<i>Panicum frumentaceum</i> , effective species, with numerous long leaves and beautiful green compact panicles, with abundance of farinaceous seed, about 2 ft. . . . .	1 0
556	<i>Panicum geniculatum</i> , producing tufts of very long leaves, and long spikes of red-brown colour . . . . .	0 6

		Per pkt. s. d.
557	<i>Panicum jumentorum</i> , in the style of <i>P. compressum</i> , but with plumes twice the size, more open, and richer in grains, about 2½ ft.	1 0
558	<i>Panicum proliferum</i> , leaves in pretty little tufts, throwing up handsome panicles, 1 ft.	1 0
559	<i>Paspalum Moluccanum</i> , curious digitiform panicles, covered with a deep green inflorescence, bordered with blackish brown, imparting the appearance of pretty caterpillars, 2 ft.	0 6
560	<i>Pentameris Airoides</i> , in the style of <i>Agrostis Steveni</i> , but with smaller panicles, though not less graceful, about 1½ ft.	1 0
561	<i>Phleum Boeheimeri</i> , this grass will be more ornamental by comparison than by inherent grace. It is stiff and upright in growth, about 1½ ft.	0 6
562	<i>Stipa calamagrostis</i> , characterised by elegant panicles of a clear yellow, glistening in the sun's rays, about 2 ft.	0 6
563	<i>Stipa elegantissima</i> , an elegant species from Australia, with silvery-haired feathered flower stalks, in the way of <i>S. pennata</i> , but very distinct, fine for bouquets, 1½ ft.	6d. & 1 0
564	<i>Stipa intricata</i> , remarkable for its long bristly reddish brown ears, 3 ft.	0 6
565	<i>Uralespis cuprea</i> , a very pretty border plant, of a fine green foliage and brown flowers, changing to a coppery purple, about 1½ ft.	1 0

The following Grasses, on account of their tall, and of many of them we might say majestic growth, we specially recommend for their sub-tropical effect.

566	<i>Andropogon formosus</i> . Our correspondent informs us that in his grounds he has a two-year-old plant upwards of 9 feet in height and 18 feet in circumference. The appearance is most majestic. Its plumes of inflorescence he describes as being unsurpassed by any grass yet introduced	1 0
567	<i>Andropogon hirtus</i> , <i>pubescens</i> and <i>rubens</i> , also majestic varieties, each, 1s., or mixed	1 6
568	<i>Arundo conspicua</i> , a gigantic New Zealand grass, with large white flowers and spikes, in the way of <i>Gynerium argenteum</i> , 8 feet	1 0
569	<i>Arundo donax</i> , a majestic plant, 8 feet	0 6
570	<i>Arundo tenax</i> , a large handsome grass with drooping foliage, 5 feet	0 6
571	<i>Andropogon argenteus</i> , a fine species, with handsome silvery leaves and glaucous foliage, 5 ft.	0 6
572	<i>Andropogon sorghum</i> , a graceful grass, with reddish brown spikes, 3 feet	0 3
573	<i>Bambusa arundinacea</i> , a majestic bamboo	1 0
574	<i>Cannabis giganteus</i> , the giant hemp, graceful plant, 6 feet	0 3
575	<i>Chloris myristachis</i> , a very remarkable species, with silky velvety plumes, 3 to 4 feet	2 6
576	<i>Chloris blanchardiana</i> , the beauty of this remarkably effective plant consists of its rosy-tinted bottle-brush-like flowers, which part at the top, 3 to 4 feet	1 0
577	<i>Erianthus ravenneae</i> , a noble grass, with exquisite silvery plumes, 7 feet	0 6
578	<i>Erianthus violescens</i> , violet-tinted majestic grass, 7 feet	1 0
579	<i>Gynerium argenteum</i> , well known for its noble appearance and remarkable adaptability for this country for margins of lakes, streams, and game covers, 10 feet	6d. & 1 0
580	<i>Gynerium argenteum kermesina</i> , the flower spikes of this variety are tinted with rosy-crimson, exceedingly effective	1 0
581	<i>Holcus</i> , of these we have ten varieties; they are exceedingly graceful effective plants where a sub-tropical effect is required, 3d. per packet; the collection, 2s.; mixed	1 0
582	<i>Penicillaria spicata</i> , a noble annual, 4 to 5 feet, leaves like the maize, with long panicles of flowers, succeeded by pretty white grain	1 0
583	<i>Saccharum cylindricum</i> , very ornamental from its white silky panicles, 3 feet	1 0
584	<i>Sorghum nankinense</i> , a very effective plant, with long narrow leaves margined purple, and large bronzy-red compact plumes, 15 inches; height about 5 feet	1 0
585	<i>Sorghum tartaricum</i> , majestic and elegant; the seed is pure white and very abundant, makes excellent bread, and the plant is good fodder, 6 feet	6d. & 1 0

## ORNAMENTAL PRIZE ZEA OR MAIZE.

The Varieties composing our splendid Collection (80 in number) were awarded the FIRST PRIZE at the "Royal Horticultural Exhibition, South Kensington."

Like the *Ricinus* and *Holcus* Grass, the *Zea* in all stages of its growth is an effective plant, but eminently so towards the months of AUGUST and SEPTEMBER, when it has attained the height of from 4 to 6 feet. Its long graceful delicate green leaves, elegant tasselled crown, and majestic appearance, make it particularly attractive in large flower borders, shrubberies, select plantations, sides of lakes, and on islands.

Having for several years described our splendid collection, we now simply offer assortments.

		s. d.
586	80 packets in 80 splendid varieties, being the entire collection	21 0
587	50 " 50 "	12 6
588	30 " 30 "	7 6
589	20 " 20 "	5 6
590	15 " 15 "	3 6
591	10 " 10 "	2 6
592	Splendid mixed	per packet 1s. and 2 6
593	<i>Zea Japonica Variegata</i> , striped leaved Japanese maize, 4 to 6 feet high, foliage 2 to 3 inches wide, and 3 to 4 feet long, beautifully and regularly striped with bands of green and pure white, the white being tinged with rose in the early stage of growth; one of the most magnificent and beautiful foliage plants yet introduced for conservatory and outdoor decoration, per packet,	6d., 1s., and 2 0

**SKIMMIA**, Nat. Ord. *Aurantia'cea*. Hardy evergreen shrub.

2196	Skimmia	japonica, a beautiful dwarf holly-like shrub, with dark green shining foliage and clusters of bright red berries, 3 ft.	1	0
------	---------	---	---	---

**SOLANUM**, Nat. Ord. *Solana'ceæ*. Ornamental fruit and foliage plants.*The following embrace the most picturesque, grotesque, and beautiful among the American species of this highly ornamental and elegant genus for sub-tropical effect in summer, and conservatory decoration throughout the year; mostly of rapid growth, attaining early maturity.*

2197	Solanum	acanthocarpum, a stately branched species, covered with formidable orange spines, leaves deeply lobed, white and tomentose underneath, curious spiny fruit, size of a small orange, 7 ft.	1	0
2198	"	aculeatis'simum, very prickly stems, leaves heart-shaped, toothed & spinous, 3 ft.	0	6
2199	"	amazonicum, fine winter blooming species, flowers rich violet, 1 ft.	0	6
2200	"	atropurpureum, remarkably beautiful foliage, and violet flowers, 3 ft.	0	6
2201	"	auriculatum, violet flowers, ear-shaped whitish foliage, 4 ft.	0	4
2202	"	Balbis'ii, prettily covered with green-yellow spines, and large white flowers, 3 ft.	0	3
2203	"	citrullifolium, large rose-purple flowers, continuing in bloom from July to October, handsome foliage, remarkably elegant, 2 ft.	0	4
2204	"	ciliatum (Princess Beatrice), beautiful vermilion fruit, and very ornamental foliage, 3 ft.	0	6
2205	"	fasciculatum, Oleander-like foliage and violet flowers, 3 ft.	0	6
2206	"	Fontanesianum, undulating cut foliage, canary yellow flowers, and spiny fruit, 3 ft.	0	6
2207	"	giganteum, majestic species, with large ornamental oval leaves, downy white underneath, violet flowers, followed by scarlet berries, 9 ft.	0	6
2208	"	glaucophyllum, fine foliage, large blue flowers, and oval black fruit, 4 ft.	1	0
2209	"	glutin'sum, grand ornamental foliage species, downy stems, and scarlet fruit, 4 ft.	0	6
2210	"	lacinia'tum, a particularly picturesque species, with long cut foliage, 5 ft.	0	4
2211	"	lanceola'tum, downy stem, long lanceolate ornamental leaves, hoary underneath, 7 ft.	0	6
2212	"	margina'tum (Cabilense argenteum), a conspicuous species for isolation, with tomentose elegantly scalloped leaves, margined silvery white, 4 ft.	0	6

## SOLA'NUM—continued.

		Per pkt. s. d.
2213	Sola'num pyracanthum (fire thorn), hoary foliage, picturesquely covered with scarlet prickles, 4 ft. ....	0 6
2214	„ reclinatum, similar foliage to No. 2210, but with large azure blue flowers, 4 ft. ....	1 0
2215	„ robustum, covered with long spines and very large and extremely effective ornamental foliage, which, when young, is of a rich brown tint, 5 ft. ....	1 0
2216	„ verbascifolium, large effective silvery foliage, and large violet blue flowers, 3 ft. ....	0 6
2217	„ choice mixed ..... 1s. and	2 6

For table decoration the following are conspicuous for their effective coloured fruits; the larger forms of these (used like yellow Capsicums) form ornamental dishes on the dessert table.

2218	Sola'num cornulicolum, remarkable for its curious fruit, size and shape of a hen's egg, ornamented at the base with five horns, of a brilliant orange colour, 2 ft. ....	0 6
2219	„ capsicas'trum, small orange-scarlet fruit, literally covering the plant, 1½ ft. ....	0 4
2220	„ „ hybridum, like the above, but with better habit, 2 ft. ....	1 0
2221	„ Gilo, cherry-sized fruit, bright scarlet, very effective, 2 ft. ....	0 4
2222	„ heterog'num; this species is conspicuous by its large black fruit, 1½ ft. ....	0 4
2223	„ hy'strix, novel, pretty white fruit, marbled with dark green, 2 ft. ....	0 6
2224	„ macrocar'pum, large violet-coloured flowers, succeeded by very ornamental fruit, size, shape, and colour of a Tangerine orange, 1½ ft. ....	0 6
2225	„ pseudo-cap'sicum, covered with pretty orange-scarlet berries, 2 ft. ....	0 3
2226	„ „ pendulum, like No. 2225, but more graceful & compact, 2 ft. ....	1 0
2227	„ Texa'num, very ornamental rich vermilion fruit, resembling a small tomato, 2 ft. ....	0 3
2228	„ Zuccagnia'num, a superb plant with cherry-shaped blood red fruit, 1½ ft. ....	0 6
2229	„ choice mixed ..... 1 0	

## SPARAX'IS, Nat. Ord. Irida'ceæ. Beautiful half-hardy bulbs.

2230	Sparax'is grandifl'ra, choice mixed, charming flowers, 1 ft. ....	0 6
------	---	-----

## SPER'GULA, Nat. Ord. Caryophylla'ceæ. Neat moss-like hardy perennial.

2231	Sper'gula pilif'era, a pretty, moss-like plant, superior to grass for verges, edges of ponds, fountains, rock-work, &c., formerly recommended for lawns, found unsuitable, 1½ in., 6d. to	2 6
------	---	-----

## SPHENO'GYNE, Nat. Ord. Compos'itæ. Beautiful showy hardy annuals.

Very effective in beds and masses, continuing in flower a considerable time.

2232	Spheno'gyne specio'sa, bright yellow, black centre, 1 ft. ....	0 3
2233	„ „ versicolor, saffron, black centre, 1 ft. ....	0 6

## SPRAGUE'A, Nat. Ord. Portulaca'ceæ. Charming half-hardy annual.

Graceful and beautiful, the flowers terminating in clusters of densely-crowded blossoms.

2234	Sprague'a umbella'ta, white, shaded and spotted purple; fine edging or rock-plant, ¾ ft. .	1 0
------	--	-----

## STA'CHYS, Nat. Ord. Lamia'ceæ. Ornamental hardy perennial, &amp;c.

2235	Sta'chys lana'ta, glaucous silvery foliage plant, fine for large edgings, 1 ft. ....	0 6
2236	„ „ coccin'ea, effective spikes of scarlet flowers, greenhouse perennial, 2 ft. ....	0 6

## STAT'ICE, Nat. Ord. Plumbagina'ceæ. Highly ornamental plants.

The following are splendid greenhouse and half-hardy species of this genus, the flowers of which are very lasting, and much prized, when dried, for winter bouquets:—

2237	Stat'ice arbores'cens, flowers blue, plant very ornamental, 2 ft. ....	1 0
2238	„ „ Bonduel'lii, large masses of golden yellow flowers, very showy, 1½ ft. ....	0 4
2239	„ „ brassicaefolia, flowers blue, very handsome species, 2 ft. ....	0 6
2240	„ „ emargina'ta, pale blue flowers, very beautiful, ¾ ft. ....	1 0
2241	„ „ floribun'da, large panicles of white flowers, with purple calyx. ....	1 0
2242	„ „ grandifl'ra, large blue flowers, very beautiful, 1½ ft. ....	1 0
2243	„ „ Halford'ii, exceedingly fine variety, with rich blue flowers, 2 ft. ....	0 6
2244	„ „ imbrica'ta, beautiful blue flowers, 1½ ft. ....	0 6
2245	„ „ pectina'ta, fine species, with beautiful rose-lilac flowers ..... 1 0	
2246	„ „ propin'qua, a splendid species, fine blue flowers, 2 ft. ....	1 0
2247	„ „ puberu'la hybrida, beautiful pale blue flowers and downy foliage, ¾ ft. ....	0 6
2248	„ „ choice mixed ..... 1 6	

The following hardy species are effective, and well adapted for rock-work, borders, &c.:—

2249	Stat'ice Ararat'i, fine trailing species, with rose flowers, ¾ ft. ....	0 6
2250	„ „ arme'ria formosa (S. pseudo-armeria), fine satiny rose flowers in rosettes, 1 ft. .	0 4
2251	„ „ arme'ria splendens, bright rose carmine flowers in rosettes, very handsome, 1 ft. .	0 6
2252	„ „ cas'pica, fine blue, 2 ft. ....	0 6
2253	„ „ Fortu'nii, a fine species, with white and yellow flowers, 1½ ft. ....	0 6
2254	„ „ inca'na hybrida na'na, various rich and beautiful colours, ¾ ft. ....	0 6
2255	„ „ latifolia, fine species, with beautiful blue flowers, 2 ft. ....	0 6
2256	„ „ lychnidifolia, a very effective species, with fine blue flowers, 2 ft. ....	0 6
2257	„ „ oleifo'lia, remarkably beautiful pale blue species, ½ ft. ....	1 0
2258	„ „ pubes'cens, beautiful violet and white flowers, ¾ ft. ....	0 6
2259	„ „ sinua'ta alba, exceedingly beautiful white species, 2 ft. ....	0 6
2260	„ „ Thoun'ii, beautiful white flowers, with clear blue calyx, attractive, 1 ft. ....	0 6
2261	„ „ choice mixed ..... 1 0	

Many other species can be supplied, at 1s. per packet.

Handwritten text, likely a title or header, possibly mentioning "Handwritten" and "Specimen".

- STENACTIS**, Nat. Ord. *Compositæ*. Fine showy hardy perennial. Per pkt. s. d.  
 2262 *Stenactis speciosa*, lilac, an exceedingly useful border plant, 2 ft. .... 0 3

**STOCKS** (Matthiola), Nat. Ord. *Cruciferae*.

*Of flowers which bloom but for a season none can compare with Stock Gilliflower for fragrance, beauty, and dazzling effect, in masses, beds, and borders.*

	<b>VERBENA</b> , Nat. Ord. <i>Verbena'ceæ</i> . Splendid half-hardy perennials.			
	Verbenas from Seed flower early, and are best suited for decorative purposes the first season.			
	To speak of the beauty and effectiveness of the Verbena would be to "paint the lily, or add new perfume to the violet."			
	We feel it is of importance to state that we offer seed saved by Mr. Wills from his newest and most advanced varieties of the "Velvet-cushion" type, with which his name has become so familiarly associated in gardening periodicals, plant catalogues, and at floral exhibitions. We have also secured from Mr. Bull seed saved from his latest and most beautiful novelties, among which may reasonably be expected colours and combinations original in this flower. We must not overlook, in this galaxy of beauty, the Lemon-scented Verbena ( <i>Aloysia Citrodora</i> ), a household pet.			
2319	Verbe'na, English, saved by Mr. Wills from his most advanced and universally admired			
	Velvet-cushion varieties. ....	1/-		2 6
2320	" " saved by Mr. Bull from his superb novelties ....			2 6

## MIXED FLOWER SEEDS,

2748 *For Shrubberies, Woodland Walks, Railway Embankments, Decoration of Wildernesses, &c.*  
5s. 6d. per Pound, or 6d. per Ounce.

2748½ *Scilla Cœrulea, the Wild Blue Hyacinth, 5s. 6d. per Pound ; 6d. per Ounce.*

In a conversation with our "SARDINIAN CORRESPONDENT," some few years ago, he pictured to us, in terms somewhat glowing, the rich native flora of Italy, and many other parts of the Continent, at the same time stating that, where Nature failed to adorn, Art became her handmaiden. This conversation originated our idea of enriching and adding to the flora of Britain, and this we at once endeavoured to carry out, by mixing nearly one hundred sorts of the hardiest and most showy annuals ; and it is with no small degree of pleasure we now find that what was then to our minds an experiment, has proved of the utmost importance. Many gentlemen, availing themselves of the suggestion, have scattered these seeds on large rockeries and roeteries, natural and artificial ; in shrubberies, woodland walks, carriage drives, and wildernesses ; also, by the side of rivulets, and wherever a floral display was desired beyond the limits of the flower garden ; and the result has been most satisfactory, imparting beauty where there was none before, and an interest to the most uninteresting localities.

For a Summer and Autumn Display, sow during March and April, simply scattering the seed broadcast, at the rate of six or seven pounds per acre, and slightly covering it. It must not be sown amongst grass, but patches here and there might be cleared and the seed deposited.

For a Spring and early Summer Display, sow in September and October.

## THE GLADIOLI.

This grand Genus may be divided into two really important sections—Summer and Autumn blooming : Ramosus and its seedlings (for descriptive list of the varieties in this section, see Autumn Bulb Catalogue) flowering in July and August ; Gandavensis and its seedlings blooming in August, September, October, and even November. As a cut flower for filling vases, &c., the Gladiolus is unsurpassed ; a flower-spike cut as it is coming into blossom will continue to develop its flowers in water, and last as long as if it had not been cut.

The stately growth and profusion of bloom of the Gladioli, combined with their rich, diversified, and strikingly beautiful colours, entitle them to a first place in the flower and shrubbery border ; and the scarlet varieties may with great advantage be used where distant effect is desired. These noble flowers cannot be too largely used for autumn blooming, standing, as they do, conspicuously prominent, when most other outdoor plants have ceased to be effective. Commence planting in clumps or otherwise in March, and continue doing so till the end of May. Should cold weather set in before the latest planted have bloomed, these may be lifted with balls, potted or put into boxes, and stood in a cool house, where they will open their blooms as well as if they had not been disturbed, and will be invaluable in furnishing a supply of flowers. Where cut flowers are largely in demand during November and December, the cheap showy varieties of Gladioli should be planted largely in the reserve garden in June, lifted before the first frosts in, and sheltered under glass, where they will bloom freely and yield a supply of flowers for cutting until the middle or end of January. *Gladioli require a deep rich soil, and liberal watering during dry weather.*

## PAXTONIAN SECTION OF AUTUMN FLOWERING GLADIOLI (Var. Gandavensis).

Under this heading are arranged the inexpensive varieties, which, for all purposes of decoration, are as effective as the more expensive sorts.

## SELECT LIST OF VEGETABLE SEEDS.

ARRANGED AND CLASSIFIED ON AN ENTIRELY NEW PRINCIPLE, AND EMBRACING ALL THE BEST VARIETIES OF VEGETABLES IN CULTIVATION, ESPECIALLY SUCH AS ARE MOST APPROVED OF IN COVENT GARDEN MARKET.

ON EACH PARCEL OF SEED CULTURAL DIRECTIONS ARE PRINTED.

All Packets of Vegetable Seeds delivered, carriage paid, by post or otherwise.

This arrangement has been made to enable purchasers, whose Gardens are limited, to obtain from our Warehouse, CARRIAGE FREE, really superior seeds, both as regards their growing qualities, and the pureness of the stocks from which they have been saved.

ORDERS FOR VEGETABLE SEEDS BY WEIGHT OR MEASURE, AMOUNTING TO 21s. AND UPWARDS, SENT CARRIAGE PAID.

For the Guidance of Amateurs, we have placed in Black Type the best varieties, and only such as are most suitable to maintain a succession.

### Section I.—LEGUMINOUS PLANTS.

For Cultural Directions, see "Our Guide to the Kitchen Garden."

#### PEAS.

The following embrace all we consider most worthy of cultivation.

#### Division I.—THE EARLIEST ROUND SEEDED PEAS.

*If sown from November to February will be ready to gather in May and June.*

THE HEIGHT IS GIVEN IN FEET,

per qt.  
s. d.

**TABER'S EARLY PERFECTION**, described by the raiser and the several persons who grew it last season side by side with "First Crop," "Ringleader," and "First and Best," as coming in with these, though planted in two instances ten to thirteen days later, and as being a much heavier cropper, the pods longer and more numerous; combining as it does with these qualities a very hardy constitution and robust growth, it must necessarily supersede the present race of first early Peas. 3 ft. .... 2s. 6d.

**Carter's First Crop** (Syn. Sutton's Ringleader), one of the earliest varieties, 2½ ft. .... 2 0

**Dickson's First and Best**, considered by many to be the same as "First Crop," and "Ringleader," and at all events equally early and as good in all respects, 2½ ft. .... 1 6

**Daniel O'Rourke** (Syns. Sangster's No. 1, Sutton's Champion, Carpenter's Express, &c.), a fine early variety, 2½ ft. .... 1 0

**Dilliston's Early**, a few days earlier than Daniel O'Rourke, but not so productive, 2½ ft. .... 1 0

**Dunnett's First Early** (Morning Star, Emperor, &c.), a fine cropper, a few days later than Daniel O'Rourke, 3 ft. .... 0 9

**Tom Thumb** (Beck's Gem), an excellent pea for forcing or for small gardens; very dwarf, 1 ft. 1 6

*See Division IV. for Little Gem and Advancer, both very early Wrinkled Marrows.*

#### Division II.—SECOND EARLY ROUND SEEDED PEAS.

*If sown from January to April will be ready to gather in June and July.*

**Auvergne**, (Syn. Dickson's Favourite), long well-filled pods, a heavy cropper, 4 ft. .... 1 0

**Bishop's New long-podded dwarf**, a fine branching variety, with long, well-filled pods, 2 ft. .. 1 0

**Blue Surprise**, Carter's, or Fairbeard's, fine flavoured and a good cropper, 4 ft. .... 1 0

**Champion of Paris** (Syns. Paradise and Essex Rival Marrows &c.), an excellent second variety, both as regards flavour and cropping, comes into use about a week after Daniel O'Rourke, 4ft. 1 0

**Harrison's Perfection**, fine flavoured and productive, 3 ft. .... 1 0

**Princess Royal**, a most productive variety, with long well-filled pods, 1½ ft. .... 1 0

**Prizetaker Green Marrow**, (Bellamy's &c.), a superior productive variety, with dark green pods, 4ft. 0 9

**Laxton's Prolific Long Pod**; pods very numerous, and well filled .... 3 6

#### Division III.—ROUND SEEDED PEAS SUITABLE FOR MAIN CROP.

*If sown from February to May will be ready to gather from the middle of July to the middle of August.*

**Burbridge's Eclipse**, a dwarf robust growing variety, with well-filled pods, 2 ft. .... 1 0

**Flack's Victory**, or **Bedman's Imperial**, branching, productive, and of fine flavour, 3 ft. .... 0 9

**Harrison's Glory**, fine flavoured and productive, 3 ft. .... 1 0

**Blue Scimitar**, a well-known and esteemed variety, very productive, 2½ ft. .... 0 9

**Victoria**, or **Waterloo tall Marrow**, large pods, fine flavoured, and very productive, 6 ft. .... 0 9

**Waterloo Dwarf**, late **Branching Marrow**, a very productive good flavoured variety, and will be much valued in small gardens, and where sticks are scarce, ft. .... 3 6

**The Peabody**, a very dwarf prolific branching late variety; a good successor to Dwarf Waterloo, 1½ ft. .... 3 6

**Division IV.—THE EARLIEST WRINKLED MARROW PEAS.***If sown in March or April will be ready to gather about the middle of August.*

	Per qt. s. d.
<b>Advancer</b> , the earliest green wrinkled marrow, very dwarf, productive, and superior in flavour, coming into use a few days after Daniel O'Rourke, 1½ ft. ....	1 6
<b>Albert Edward</b> , a new early tall green marrow, as early as the Emperor; exceedingly productive, pods long and well filled, flavour excellent, said not to be subject to mildew, 5 ft. ....	3 6
<b>Champion of England</b> , one of the best peas in cultivation; abundant cropper, fine flavoured, 4 ft. ....	1 0
<b>Hair's Dwarf Mammoth</b> (Syn. Lord Raglan), superior to Knight's Dwarf Green Marrow, 3 ft. ....	1 6
<b>Little Gem</b> (McLean), a very dwarf productive full flavoured first early marrow, coming into use with Daniel O'Rourke, and being miniature can readily be grown under glass, 1 ft. ....	2 6
<b>Napoleon or Climax</b> , very productive and fine flavoured, 3 ft. ....	1 0
<b>Ne Plus Ultra</b> , a first-class variety; peas dark green, and of very superior flavour, 6 ft. ....	1 0
<b>Prince of Wales</b> (McLean), a first-class variety, fine cropper, and fine flavour, 4 ft. ....	1 6
<b>Princess of Wales</b> (McLean), a fine cropping fine flavoured variety, 3 ft. ....	1 6
<b>The Prince</b> (new), robust, dwarf, and much branched, pods long and in pairs, remarkably fine flavoured, stands drought well, and is considered a great acquisition, 3½ ft. ....	3 6
<b>The Princess</b> (new), a fine dwarf robust branching variety, with large numerous well-filled pods, flavour very superior. This is a most valuable pea; <i>sow thinly</i> , 2½ ft. ....	3 6
<b>Smythies' Prolific Branching</b> marrow pea, one of the very best of Dr. McLean's successful hybrids, 2½ ft. ....	2 0

**Division V.—WRINKLED MARROW VARIETIES, the best for Main Crop.***If sown in April and May will be ready to gather in August, September, &c.*

<b>British Queen</b> , a favourite variety of superior flavour, and a fine cropper; during mild seasons it continues blooming, and podding, sometimes as late as Christmas, 6 ft. ....	1 6
<b>Champion of Scotland</b> (Syn. Strathmore Hero), a strong growing, fine flavoured variety, with large well-filled pods; continues blooming and podding, sometimes till Christmas, 6 ft. ....	1 6
<b>King of the Marrows</b> (Syn. Tall Green Mammoth), a strong grower, of branching habit, with long well-filled pods, which are produced in great abundance; very fine flavour, 6 ft. ....	1 6
<b>Knight's Dwarf Green Marrow</b> , a useful branching late variety, 3 ft. ....	1 6
<b>Eugénie or Alliance</b> , fine flavoured and productive, 3 ft. ....	1 0
<b>Premier</b> , one of the best peas in cultivation, a fine late variety ....	2 0
<b>Veitch's Perfection</b> , a first-class branching variety, with dark green foliage, and large well-filled pods; very productive, and of a superior flavour, 4 ft. ....	1 6
<b>Wonderful</b> , very productive, fine flavour, good late variety ....	2 0
<b>Yorkshire Hero</b> , a heavy cropper, of superior flavour, resembling Veitch's Perfection, 3 ft. ....	2 0

In addition to the above excellent varieties, we can supply all other sorts advertised.

**Division VI.—EDIBLE PODDED or SUGAR PEAS.***These are much used on the Continent, and greatly esteemed, being prepared as French Beans are in this country.*

	Per pint.
<b>Giant</b> , very large edible podded Sugar Peas (new) ....	2 6
<b>Knight's Dwarf White</b> edible podded sugar peas (new) ....	2 0

Long Scarlet Superb Short Top (Beck's), a valuable long salmon variety for main crop .....	0 3.	2 6
" " Early Frame (Wood's), the best long variety for forcing .....	0 3.	2 6
" White .. } Besides being of excellent quality, these are much prized for their {	0 4.	3 6
" Purple .. } colour, which contrasts nicely with the scarlet varieties {	0 6.	..
Olive-shaped Scarlet .....	0 6.	3 0
" White ..	0 6.	3 0
" Scarlet, tipped white	0 8.	4 0

These are excellent for forcing and for general crop; being fleshy, they are not readily affected by dry weather. The last named is the much-prized "French Breakfast Radish."

		per oz.	per qt.
		s. d.	s. d.
Round or Turnip Red ..	These stand dry hot weather better than any other varieties, and by some are esteemed at all seasons. The purple variety, which we now offer for the first time, will contrast beautifully with the scarlet and white.	0 3..3	6
" " White		0 3..3	6
" " Purple		0 6..5	6
Winter Black Spanish ..	These are much esteemed for winter use, and should not be sown before the middle of July.	0 4 ..3	6
" Scarlet China..		0 6..	..
" Purple China..		0 6..	..

## A NEW AND DELICIOUS VEGETABLE BELONGING TO THE RADISH TRIBE.

**RAPHANUS CAUDATUS.** Mr. Bull's variety, which was exhibited at the International Exhibition, and created such a furor. Of this most interesting addition to our salad plants the pods only are used; they are of an agreeable delicate Radish-flavour, and of easy digestion. In salads they are highly esteemed, and are most valuable for pickling. When boiled and served up to the table on toast, the pods are, however, most delicious eating, like marrow. The pods are of rapid growth, attaining the length of 3 feet, but should be gathered when about half grown. In addition to their culinary value the plant when in pod is decidedly ornamental and a great curiosity, and worthy of a place in the flower garden. The seed may be raised in heat, potted off, and planted out in May, and should be sown in the open ground for succession in May and June. Per packet 1/2, 2/6, and 5/.

being calm. it was a  
grand sight.

I was very sorry  
to hear our friend Roger  
of Merry Hill - has been very  
ill. however I am glad  
to find he is recovering  
but must have been very  
exhausted to be laid by  
just at the busiest season

Whenever you are  
anywhere near us I shall  
be glad to see you

And Remain  
Yours faithfully  
W<sup>m</sup> Fowler

P.S. - We have a little acct. in  
your favour: When in Henry, return  
from London till end of the month. There matter  
of the more

macrocarpa from a plant  
imported myself, know  
the plant in the trade  
sold under that name  
is false not true
